

## 2-COMPONENT LOW PRESSURE METER-MIX- AND DISPENSING MACHINE

- Stainless steel tanks with 30 / 60 Ltr. volume with agitator and level control
- Electric heating for tanks
- Vacuum system for degassing
- High precision metering pumps powered by servo motors
- Electronic adjusted and controlled mixing ratio
- 2-component mixing head with static - roto static- or dynamic mixer (air- or servo motor)
- Automatic flushing for mixing head
- Siemens touch panel
